

Services - Total Legal

We manage uninsured legal services for over 275,000 legal expenses policyholders.

"Arc Legal has developed a managed legal services solution, which provides customers with access to a range of uninsured services giving us the capability to cover all of our customers' needs."

Richard Miles, Head of Marketing, Direct Group Ltd

'Total Legal' is Arc Legal Assistance's managed legal services offering.

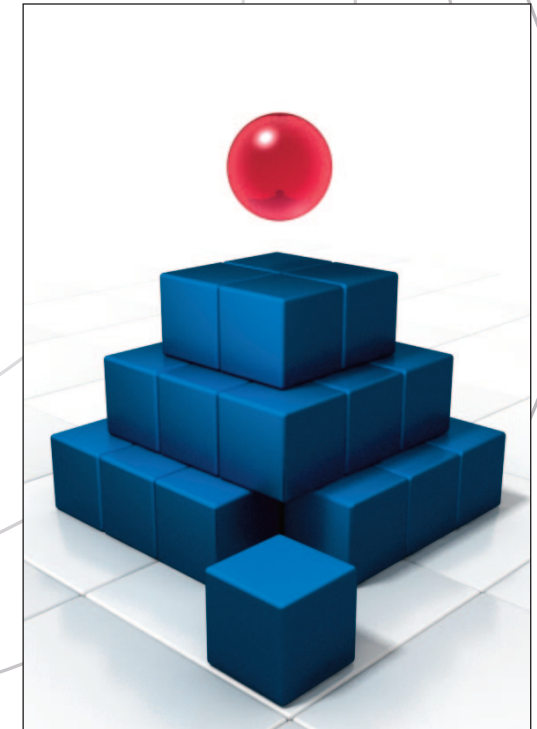

We offer a forward-thinking concept, embracing opportunities presented by the Legal Services Act 2007 relating to the way legal services will be offered in the future.

Legal expenses insurance cannot cover every eventuality requiring the services of a legal professional. To address this gap in the traditional offering, we provide access to discounted legal services to create a holistic 'lifestyle' legal product.

Available as standalone services or as a non-insured enhancement to legal expenses insurance contracts, 'Total Legal' enables our clients to provide their customers with immediate access to legal services such as:-

- Will writing
- Conveyancing
- Legal separations and divorce
- Tax planning
- Estate and trust administration
- Pre marital and cohabitation agreements

Our objective is to provide access to a total package of discounted, accessible legal services which will meet most requirements that individuals and small businesses encounter in the normal course of events.
